

User Manual

1. Product Description

JLR-IMMO is a dedicated IMMO device for Jaguar and Land Rover, launched by Shenzhen Lonsdor technology company. It's designed to program car keys and applicable to above 95% of Jaguar and Land Rover models currently (VPW protocols of Jaguar's old model is unsupported). JLR-IMMO supports OBD program mode, and more than 50 software versions for KVM as well. A majority of KVM case is dismantle-free and can be programmed with this device.
